

The logo for the 7th International Earth Science Olympiad has:

- Number 7 (representing the 7th edition of IESO)
- The Earth's imagery from space (signifying Astronomy)
- The clouds and oceans in the imagery (representing Atmosphere and Hydrosphere)
- The Earth's cross section in number 7 (representing Geosphere)
- The national flag of India, the host country, in number 7.
- The slogan: *Vasudhaiva Kutumbakam* (from ancient scriptures; *Maha Upanishad* VI.71-73). It means, "The Earth is indeed one family", which is what IESO has been striving to achieve: integration of the Earth's subsystems in the school curriculum.

Designed by R. Shankar and Shwetha B. Shetty, Mangalore University.
